About Energy Harness

Established in 2010, Energy Harness Corporation (EHC) specializes in the manufacturing and nationwide distribution of high quality commercial LED lighting. Combining our wide range of products and technical expertise, we create innovative LED solutions that will reduce your energy and maintenance costs.

With multiple teams of experienced lighting professionals, EHC can offer engineering and technical support as well as in-house energy analyses to all prospective clients. Our wealth of knowledge in lighting consultation and installation enables us to be an integral part of the lighting process from planning and purchasing all the way to project completion.

Energy Harness® is headquartered in Cape Coral, Florida and along with our Midwest office in Indianapolis, Indiana we are able to shine our light on the entirety of the United States. With our lighting consultants and professional installation teams on call and ready to travel, quality light is always within your reach.
LED Interior Lighting
Give your new project a modern feel with reliable LED lighting from Energy Harness!

Recessed Downlights
With countless applications, our LED Recessed Downlights are sure to give you great light for years to come!

Flat Panels
Give your new build a modern feel with LED Flat panels. The excellent distribution and the ability to tune their wattage and CCT make this product great for multiple applications!

Energy Efficient

Compared to traditional light fixtures, our LED fixtures use up to 75% less energy while providing better light distribution!

Strip Lights

The low maintenance and sleek design of these fixtures make them ideal for tight spaces such as stairwells, utility areas, and storage spaces.

Bay Lighting

Available in traditional, circular and linear styles, our LED bay lighting is perfect for high and low ceilings.

Energy Harness® Lighting Upgrades Reduce Your Costs

- Maintenance free for the lifespan of the lights
- 50%-80% energy savings
- 8-15 year lifespan
- No environmental hazards (mercury or ballasts)
- Products pay for themselves in 1-3 years

LEAF Makes Your LED Lighting Upgrade More Affordable

- **100% Financing** - include other costs such as taxes, freight and installation
- **No Drain on Cash** - purchase your lighting upgrade with no money upfront
- **Payment Flexibility** - LEAF tailors payment plans to your business
- **Smart Payments** - monthly energy savings often equal or exceed payments

Contact your Lighting Consultant today to discuss how you can upgrade your lighting with no money out of pocket!
WHAT THEY'RE SAYING

Over the past few years, **Energy Harness®** has been helping hundreds of clients across the United States achieve their energy goals while improving their quality of light. Here’s what some of them have to say about us.

“The Energy Harness team was efficient and professional throughout the entire project. Looking forward to using their products and services for our next commercial build.”

– DAVID JOHNSON – GENERAL CONTRACTOR

“It is a different experience working with a manufacturer. Quality advice and products directly from the source. The client is thrilled with the custom lighting upgrade from Energy Harness.”

– CORY HAWBAKER – PROJECT LEAD AT ELECTRIC PLUS

“It was a pleasure working with Energy Harness. Everyone was very cordial and professional. I would recommend them without any hesitation.”

– TRACY HERMAN - PORT CHARLOTTE PUBLIC LIBRARY

Your lights should work for you! Contact us today to reduce your energy cost and start putting money back into your pocket!
