

Energy Harness® Integrated LED Lighting provides a modern design that is a smart alternative to fluorescent lighting. This unique design allows for these products to be used as their own fixture or mounted inside of existing fixtures. Integrated LED tube lights are safer than fluorescent tubes as they do not contain mercury or glass. EHC Integrated lights are maintenance-free because they do not use ballasts. They are wired directly to A/C power for improved reliability and can be easily daisy chained together from a single power source. These Integrated Tubes are available in T5 Singles and Doubles, both in a variety of sizes and colors to meet your needs.

EHI48D-T530-xxK

EHI48-T515-xxK

Applications

- Ceilings
- Shelves
- Coolers

- Cabinets lighting
- Soffits
- More!

Specifications

- CRI > 80
- Beam angle > 120°
- Power Factor > 0.9
- IP40 rated
- 100-277VAC 50/60hz
- Isolated internal driver
- Working Temp:
-22° - 140°F
- Aluminum housing
- Efficacy: 105lm +/- 5lm
