

Energy Harness® LED Bulkhead Fixtures are designed to replace a variety of surface mount fixtures. From wall packs to canopy lights, these bulkheads are sure to meet your needs. Great for office and public buildings, condominiums, schools, low canopies, and soffit locations. With energy savings of about 60% and no maintenance required through the lifespan of the fixtures, these LED lights are sure to pay for themselves!

Energy Harness® LED Bulkhead Fixtures are ideal replacements for fixtures up to 100W Metal Halide or High Pressure Sodium. These fixtures are designed with an open frame for maximum light distribution. The diecast aluminum housing and polycarbonate opal lens make these fixtures an ideal choice for the outdoor elements. Upgrade your lights today and increase your light output all while lowering the cost of your energy!
